Frontend Developer | UX/UI Designer

I am passionate about continuous learning and user experience development. My journey in technology began in 2021, and to deepen my knowledge, I pursued a Software Development degree at BYU-Idaho. I have gained strong skills in HTML, CSS, and JavaScript and am currently exploring Python and C#. Now, I am eager to apply my academic experience in a professional environment, collaborate with a team, and further refine my skills.

Skills

- Rigor, attention to detail
- Empathy, teamwork, curiosity
- Languages: Portuguese, French(fluent), English(Fluent)
- HTML, CSS, SASS, JavaScript
- Python, C#

Experience

Substitute Teacher

Oct. 2022 – Present

Sunflowers Kindergarten

- Planned activities for each group according to their age.
- Taught children about their feelings and emotional management; through this, they have increased their ability to manage conflicts by themselves by 50%.
- Created with the director new informative posters helping to have a better communication with the children's parents.

Marketing Director

2019 - 2022

Kelly Franceschetti

- Responsible for one child aged 4 years of age.
- Supported learning goals and understanding the importance of staying committed to school homework; as a result, her grade increased by 30%.
- Prepared age-appropriate snacks, as well as crafts and other activities to keep the little one engaged.
